

Disclosure of Potential Conflicts of Interest

Instruction. This form will provide the Editorial Office and Reviewers with information about any potential conflicts of interest that may exist. The Journal will publish such disclosures if they are judged to be important for our readers. The corresponding author collects the conflict of interest disclosure from all authors. He/she is kindly ask to print this form upon completion, sign by all authors, and scan to keep a copy for your files.

For authors who have a relationship (financial or/and non-financial) with either an individual or an organization that could influence their work inappropriately a conflict of interest may exist. These conflicts of interest may include but are not limited to personal, political, and political relationships; consultancies; honoraria; employment; grants or other funding; paid expert testimony and patent-licensing arrangements; and other financial relationships such as funding and stock/shares ownership.

Manuscript Title: _____

Manuscript No. (if known): _____

Authors: _____

Corresponding Author(s): _____

To determine the nature of the conflict, the author(s) may consider some of the following examples:

- research funding (include funds received or expects to receive research grants from funding agencies, in which you were the principal investigator, collaborator, or consultant) - please provide details regarding the research funder and the grant number;
- other research support (includes receipt of drugs, supplies, equipment, medical devices, medical services or other in-kind support from commercial sources of funding by companies);
- employment (an author is an employee of an organization or company);
- honoraria (include fees received for speaking during symposia and other meetings or occasions);
- expert witness (serving as an expert witness, consultant or otherwise providing a deposition, holding a position on advisory boards, testimony, or other information, analysis or document for a lawsuit, government agency proceeding);
- ownership interest (stocks or stock options; partnership, membership, any rights in any patent or other intellectual property). If an author is an inventor of any planned, pending, or awarded patent on this work-please provide detailed information such as regarding the patent applicant, name of inventors, application number, status of application, specific aspects of manuscripts covered in the patent application.
